

Enrollment Central Supports Business Continuity with Telework Technology

Enrollment Central supports your business continuity efforts by helping you retain your customers and protect your business when working from home.

We are approaching our new normal smartly and with tremendous regard for the safety of our customers, employees and communities. Please rest assured Enrollment Center is the right technology for quoting Medicare plans and managing your own business remotely, as you provide a comfortable haven for seniors to confidently shop and securely enroll in their best fit plans online.

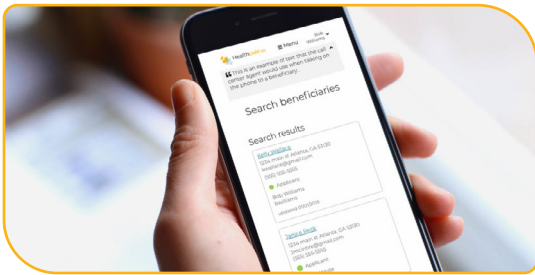

Make Enrollment Central an integral part of your Business Continuity Plans.

Beneficiaries easily find their best fit plans online, with and without assistance.

We are proud to have been the best alternative to Medicare.gov this past year, and we know Enrollment Central remains the best option for you in building your Medicare business as we face increasingly uncertain times.

Keep your members and grow your business when you work remotely

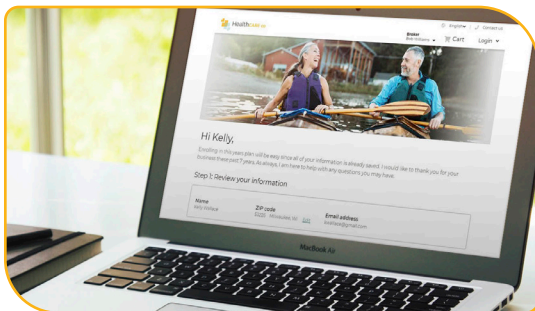

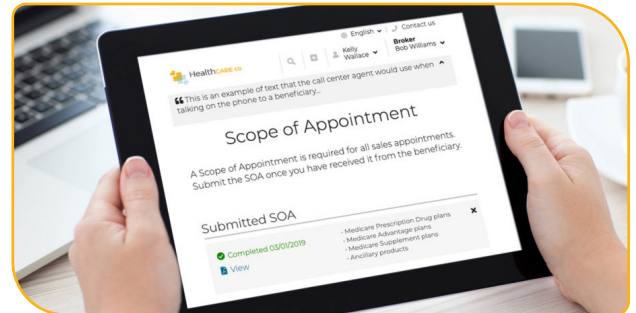

1. Access your Book of Business online and stay on track

Don't miss a step with the ability to manage your members, tasks and notes all in one portable location.

2. Stay fully compliant while teleworking

Confidently and compliantly document beneficiary requests to discuss plan options over the phone with our **Electronic Scope of Appointment**.

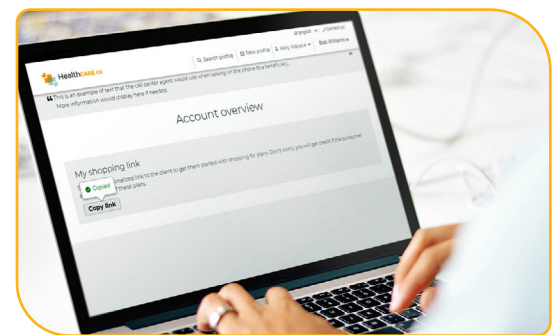

3. Send a Quick Quote at any time

Improve self-service enrollments for MA, MAPD, and PDP plans from laptop, phone or tablet.

4. Protect your commissions at all times with your Personalized URL (PURL)

Email a unique PURL to every senior that links you (and only you) to every enrollment. Rest easy knowing seniors only see the plans you are licensed to sell and that you will never be cut out of your commission as your name is visibly attached to each PURL.

We are here to support you, your seniors and your business.

ConnectureDRX offers the most widely adopted Medicare shopping, quoting and enrollment solution, providing millions of consumers every year with a simple digital experience for finding their best fit Medicare. plans.
